

An Introduction To

Lime Tree House Care

LLP

a fresh approach to care

THE LIME TREE JOURNEY.....

Proprietors, Robert and Claire Lee had a vision that they wanted to provide a 10 bed, nurse lead care home, divided between 8 long term beds and 2 respite beds; providing person centred care for people with Learning Disabilities, Mental Health, and Brain Injuries.

This vision quickly grew into reality with a lot of hard work from builders, architects, industry professionals, and family and friends.

Lime Tree House opened its doors on 6th July 2015 and is headed up by Registered Manager, Sue Robson and Clinical Lead, Glen Robson. Together with the carefully selected staff team, we are now ready to provide high quality, bespoke Nursing and residential care.

All rooms are en-suite and there are spacious dining and lounge areas; as well as a range of rooms offering activities, entertainment, vocational opportunities and a sensory environment.

Watch this space for further updates regarding our service!

LIME TREE HOUSE ACHIEVEMENTS....

Lime Tree House Care LLP and Registered Manager, Sue Robson received CQC Registration following inspection on 11th May 2015.

All Staff have completed NAPPI (Non—Abusive Physical and Psychological Intervention) Training.

Scott Edwards, Director of Business Development at NAPPI UK Limited provided the following feedback after the 4 days training, "**Most weeks are productive working for NAPPI uk; last week was particularly so, but it was also enjoyable and inspiring at the same time. You have put together a team with a very rare quality that I am sure will have considerable success**".
